tages possessed by the territories represented. While a beautifully worded advertisement read at a distance would be regarded as but the effort of a brainy writer who has drawn largely upon his imagination for coloring for his extravagantly colored picture.

Should your territory have not yet assumed a prominent place in the ranks of cereal growing localities, you could extrainly make an attractive display of fraits an ivezerables, and no better opportunity could be afforded your mining eigentors to exhibit the evidence of your underground wealth. While no premittes have been offered for mineral exhibits, every facility will be afforded some premitted and a superior of visitors, and from information already at hand, it is expected that a marked spirit of rivairy will be exhibited between the mineral producing districts of the west.

In order that the exhibit from your territory may be in competent hands, our association has directed its president to request you to appoint a commissioner, whose duty it will be to exercise a general supervision over the various exhibits which may be brought thither, and who will be recognized as the official representative of your territory at the exposition. Every facility for making an attractive display will be a forded him, and the management will endeavor to render his visit to St. Joseph one of 1 rout to his territory and of pleasure to his preference to the premium lists, etc.,
